Digital Control - Integrated Hydraulic

Information

Based on the award-winning F200 inline 4, the F175 delivers an exceptional power-to-weight ratio due to its extremely lightweight design and high engine output. Suitable for a wide range of vessels, this 2.8 Litre, four-stroke engine delivers an unbelievably smooth and quiet performance.

With its narrow 600mm mounting centers, the F175 is ideal for twin engine applications and has been engineered to operate Yamaha's Shift Dampener System (SDS) propellers, resulting in smooth shifting, vibration-free operation, and reduced overall noise. Choose between mechanical or 'fly-by-wire' digital throttle control options, for an extremely smooth and simple to operate boating experience.

Engine kit and prop additional please inquire

Boat City are a family business that have been at the forefront of the marine industry since 1962.
