Information

The big little boat! Deck space that rivals some 5.5M boats makes this the ideal platform for a day fishing or cruising in comfort. Seating for 4 and plenty of space means that family and friends won't be getting in the way of each other and tangling up lines or bumping one another. The unique walkthrough screen also means that when coming into the beach you can exit via the bow, no need to jump off the side and get wet.

Always looking to improve the Reflex Chianti 485 Special Edition has been recently upgraded to give you the features of a much larger boat. Hydraulic steering is now standard giving you an effortless driving experience. Folding H/D Stainless Bimini gives the boat that overall stylish look not seen on other boats of this size. Combine this with a 6 Rod Rocket Launcher and it means your fishing rods are up and out of the way preventing them from getting damaged in transit. The now standard 70L underfloor tank packaged with a four-stroke engine means a day on the water without having to take 3-4 twenty litre fuel tanks that take up room and ruin the look of your new boat.

If fishing wasn't your thing then these boats would double as a great little ski boat. The large amount of room in the cockpit means you can fit all the ski gear with ease, it can handle a double ski tube no problems and to top it off the ski pole is just another standard feature in the new and improved Reflex Chianti 485 Special Edition.

Boat City are a family business that have been at the forefront of the marine industry since 1962.
