### Information

Eye catching is the first thought that comes to mind! The Flyfin 1700 with its top-quality finish, good looks and great on water performance sets it apart from the rest. There are four models in the 1700 range with this model been the 1700 Dual Console. A large walk thru screen makes getting to anchor locker a breeze. Large floor storage compartment sit in front of the foot rests on each side to prevent bags from ending up at the back of the boat. Fully upholstered large bucket seats sit on top of alloy box pedestals with more storage underneath. Side shelves, console pockets and battery lockers round out the ample amounts of storage for a boat of this size. Wide gunwales provide a comfortable place to sit on a good day and a full-length fender rail will help provide protection when getting in close.

When optioning the Bimini Top it not only looks class but folds back with ease to sit below the windscreen to fit under the carport or in most garages.

### Specifications
