Information

The Bay Runner 480 is a practical alloy fishing boat built for simple, affordable boating. Easy to tow, easy to launch, and easy to own, it's the sort of package that gets you on the water without the complexity and expense of a larger boat.

Powered by a Honda 50hp Four Stroke outboard and fitted with a range of practical features, this package is well suited to harbour fishing, family boating, and weekend adventures. The alloy hull keeps ownership straightforward while providing plenty of usable space for its size.

The canopy with front clears offers protection when conditions change, while the Garmin fishfinder/GPS helps make finding your way and locating fish easier. Ideal for someone upgrading from a dinghy or looking for their first proper trailer boat.
