Information

The McLay 525 is a practical alloy fishing boat designed for easy ownership and everyday use. Built with durability in mind, this package is equally at home as a fishing platform or dive boat, making it a versatile option for a wide range of buyers.

Powered by a Yamaha 90AETO with 650 hours, it offers proven reliability and economical running costs. The alloy construction keeps maintenance simple, while the open layout provides plenty of usable space for fishing gear, dive bottles, and day-to-day boating activities.

Previously used as a dive boat, this McLay is already set up to continue life as a dive platform, with dive tank holders fitted and a practical uncluttered layout. It's also an excellent option for buyers wanting a low-maintenance fishing boat that's easy to launch and retrieve from the beach.
