### Information

The Reflex Legacy 505 is a practical family fishing boat that offers a great balance of comfort, usability, and affordability. Designed to be easy to tow, easy to launch, and easy to own, it's an ideal package for families wanting to spend more time on the water.

Powered by a Mercury 90ELPT, this package delivers reliable performance while remaining economical to run. The cabin provides a comfortable place to get out of the weather, store gear, or give the kids somewhere to sit during the trip.

With a canopy for extra protection and a practical fishing layout, the Legacy 505 works equally well as a family boat or weekend fishing platform. It's the sort of package that lets you get on the water without the expense of a larger boat while still having all the essentials already fitted.
