Information

The launch of Yamaha's F70 changed customers' expectations of outboards in this category forever.

Beating in the heart of the F70 four stroke is a unique four-cylinder, 16-valve design activated by a single overhead camshaft. The 4-valves per cylinder valvetrain has dramatically increased this outboard's volumetric efficiency, effectively transferring more air and exhaust at a more efficient rate. This makes the F70 more fuel-efficient, promotes a stronger torque band and makes the F70 lighter than all four-stroke and direct injected two-stroke competitors.

The F70's awesome performance offers huge versatility and makes it the perfect power option for a huge range of mid-sized fishing boats and pleasure craft.

Price Includes Rigging Kit - Alloy Prop, Gauge, Remotes & Cables

Re- power special for a limited time

Finance based on 10% deposit with a finance rate of 7.99% over 7 years
