Information

The Chianti 635, a large volume full beam boat that offers outstanding stability, performance and space. With a beam of 2.5m the 635 is arguably one of the widest boats of its size. This translates to outstanding stability at rest and the ability to plane at speeds as low as eight knots. The low planing speed makes towing water toys a breeze and should you get caught out with the weather you can still economically cruise on the plane, while comfortably driving to the conditions.

The huge space of the cockpit can be converted from a comfortable family cruiser to a fishing boat in two easy moves, simply remove the clip in carpet to expose the white gelcoat floor then remove the rear quarter seats to make the fishing space even greater.

It may appear that the cockpit space has been obtained at the expense of the cabin area, but the generous headroom and two-metre-long squabs, with optional infill make overnighting not only possible but comfortable.

Sticking to the Reflex Chianti Special Edition theme the 635 has been recently upgraded to give you the special features of an much larger boat. Hydraulic steering is now standard giving you an effortless driving experience. Folding H/D Stainless Bimini gives the boat that overall stylish look not seen on other boats of this size. Combine this with a 6 Rod Rocket Launcher and it means your fishing rods are up and out of the way to prevent them from getting damaged in transit.

Boat City are a family business that have been at the forefront of the marine industry since 1962.

With one of the largest ranges of brands both new and used, you can purchase with confidence that we will have something to suit your needs.
