Information

Our 390 Powercat dares to defy, a dinghy on steroids, this tiller steer power cat redefines the limitations of small vessel boating. Coming standard with the Kingfisher Powercats's highly revered casting platform and hosting plenty of forward storage, the 390 Powercat is the tool you need to get the most out of endless inshore fishing and diving opportunities along with lake and river cruises. With the same soft riding hull design featured across the entire Powercat range you can make stability a worry of the past and discover a new lease on small boat capabilities.

Note engine is second hand 2022 with approx 10hrs on the clock
